CONTRACT FOR RESIDENTIAL WATER AND WASTEWATER SERVICE

New Service _____ Name Change Only _____ Update Information Only _____

The undersigned subscriber hereby makes application to the Fort Bend County MUD #49 for Water service, Wastewater service and Sewer Tap Inspection (new application) at the following premises:

Address: _____ Lot _____ Block _____ Section _____

By this application the undersigned subscriber agrees to comply with the Fort Bend County MUD #49 (the "District") "Plumbing Material Restrictions and Prohibited Plumbing Practices", the District's "Rules and Regulations Governing Sewer Service Lines and Sewer Connections" and the District's "Order Regulating the Introduction of Wastewater Into the Sanitary Sewer System of the District".

The subscriber for new residential service hereby tenders the sum of One Thousand Six Hundred (\$1,600) Dollars for a water tap fee and One Hundred (\$100) Dollars for a sewer tap inspection fee. The water tap fee includes the installation and maintenance of a 3/4" water meter on the part of Fort Bend County MUD #49 within the street right of way and/or utility easements for service at the above described premises. It is understood that title to the water meter is vested in the Fort Bend County MUD #49. The cost for a 1" meter is One Thousand Nine Hundred (\$1,900) Dollars.

The subscriber agrees to take and use said water and wastewater service at the following rates which are subject to change in accordance with the standard Utility rate making accounting procedures:

UTILITY SERVICE RATES: (MONTHLY BILLING)
Single Family Residential Users:
* Water First 6,000 gallons \$ 31.00 per month (Minimum)
Over 6,000 gallons \$ 2.00 per 1,000 gallons
** Wastewater First 5,000 gallons \$ 31.00 per month (Minimum)
Over 5,000 gallons \$ 2.25 per 1,000 gallons
Multi-Family Residential Users:
* Water First 6,000 gallons/Unit \$ 31.00 per month (Minimum)
Over 6,000 gallons/Unit \$ 2.00 per 1,000 gallons
Wastewater First 5,000 gallons \$ 31.00 per Unit/month
Over 5,000 gallons \$ 3.25 per 1,000 gallons

* Water; All Users will be Charged a Ground Water Reduction Plan Fee of \$ 1.89 per 1,000 gallons of water used, including a ten percent (10%) administrative fee. This Fee will be listed separate on the bill. This fee is determined by the Ground Water Reduction Agreement with the City of Missouri City and is subject to change.

** Single Family Residential users will be billed for wastewater services using a three month (Dec., Jan., and Feb.) winter average of water consumption, with a 12,000 gallon cap. New customers, with no historical usage will be billed for wastewater at a rate of 8,000 gallons which does not exceed the standard sanitary wastewater usage rate, currently 9,600 gallons.

* A Garbage fee may be applicable

* Regulatory Charges (forwarded to TCEQ): one half of 1% of the district's water and sewer charge

The subscriber hereby grants the District the right of ingress and egress in order to read repair and otherwise maintain the District's water tap and meter.

All charges are due and payable on the or before the 15th of the month. A penalty in the amount of 10% of the existing unpaid balance is assessed on each delinquent account on the 16th day of the month. Failure to pay all charges when due may be deemed breach of this contract, at the discretion of the Fort Bend Municipal Utility District #49, in which event all services may be discontinued with proper notice. If service is disconnected, for any cause, a reconnection fee of \$50.00 shall be paid to the District before service is again commenced at the above location. If service to a User is disconnected for non-payment on an account, a reconnection fee of \$50.00 must be paid, and the existing unpaid balance of the account must be paid, and the deposit on the account must be incrementally increased before service is restored. Each time service is terminated for non-payment, the deposit amount will increase by \$100, up to the maximum amount of \$300.00 before service is restored. All returned items which include checks, money orders, electronic funds transfer, or credit cards shall be charged a twenty-five (\$25) dollar handling and processing fee.

PLUMBING MATERIAL RESTRICTIONS AND PROHIBITED PLUMBING PRACTICES

Prohibition of Use of Specified Materials

The use of the following plumbing materials are prohibited in any and all improvements connected to the District's water system:

1. Any pipe or pipe fitting which contains more than 0.25% lead; and
2. Any solder or flux which contains more than 0.2% lead

Prohibition Against Cross-Connections and Undesirable Plumbing Practices: Penalty for Violation

1. No direct connection between the District's potable water distribution system and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the District's potable water distribution system by air-gap or an appropriate back-flow prevention device.

2. No cross-connection between the District's potable water distribution system is permitted. These potential threats to the District's drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.

3. No connection which allows water to be returned to the District's potable water distribution system is permitted. This includes, but is not limited to, any device pursuant to which water is removed from the District's potable water distribution system, circulated through a customer's system for cooling or heating of fluids used in connection with a heat exchange system and routed back to the District's potable water distribution system.

4. Any User of the District's potable water distribution system shall allow its property to be inspected for possible cross-connections and other undesirable plumbing practices. These inspections shall be conducted during normal business hours by the District's representative prior to initiating service and periodically thereafter.

5. The District will notify the User in writing of any cross-connection or other undesirable plumbing practice which has been identified during the initial inspection or the periodic reinspection. At its sole cost and expense, the User shall immediately correct any undesirable plumbing practice on its premises and properly install, test and maintain any backflow prevention device required by the District within two (2) working days of receipt of notice of the improper cross-connection. Copies of all testing and maintenance records on such devices shall be provided to the District annually.

6. If the User fails to comply with the terms of this Section, the District may, at its sole option, terminate service or properly install, test and maintain an appropriate backflow prevention device at the User's service connection. Any expenses associated with the enforcement of this section shall be billed to the User.

Any User who:

1. Violates any Section of this Order; or
2. Makes unauthorized use of District services or facilities; or
3. Causes damage to District facilities by using such facilities in a manner or for a purpose contrary to the purpose for which such facilities were designed; or
4. Uses or permits the use of any septic tank or holding tank with the District; or
5. Violates the District's "Rules and Regulations Governing Sewer Service Lines and Sewer Connections"; or
6. Violates the District's "Order Regulating the Introduction of Wastewater Into the Sanitary Sewer System of the District"; or
7. Constructs facilities which are not included in the approved plans for development;

shall be subject to a penalty of **\$5,000** for each breach of the foregoing provisions. Each day that a breach of any provision hereof continues shall be considered a separate breach.
